Enjoyed by families-7years up

The XM-22 Laser Tagger

Our Aussie-manufactured taggers are state of the art technology with life-like military or sci-fi sound effects so that every time you shoot, reload, get hit or deactivate the tagger, it sounds authentic.

Laser skirmish uses the same battle field scenarios as 'paintball' without the bruising, welts and wounds of paintball.

Contact us for our competitive mobile rates.
Fully equipped 50 acre skirmish venue also available.

We look forward to your enquiry!
