ENQUIRE TODAY!!

Welcome to Mobile Laser Skirmish -

LASER SKIRMISH is a new generation, high-tech, recreational activity that is a blast for young & old. Played indoors or outdoors, children as young as 7, right through to adults desiring to compete at corporate or competition level, can engage in a laser skirmish. Our Aussie-built XM22 taggers produce authentic battlefield sounds and fire completely harmless infrared beams of light (out to 200m in daylight) that register 'hits' - "Ouch!" on your opponent's tagger. Try it today - our site or yours. We look forward to your enquiry.

Players are briefed regarding the correct operation of the XM22 taggers & the skirmish rules. Under the supervision of the experienced operator / referee, the battle begins. We offer various competitive scenarios to suit the site, available time and the age level / maturity of the players.

The **PORTABLE NATURE** of Mobile Laser Skirmish allows us to take the skirmish out into the community and to use in a variety of locations – halls, large backyards, properties, ovals, parks, reserves, school grounds, indoor stadiums and bushland. Group sizes: 10+ people.

Townsville MLS: Lot 2/493 Harvey Range Rd, Bohle Plains 4817
