- Camps

## Welcome to Mobile Laser Skirmish Far North Coast!

Focussing on serving centres between the Clarence and Tweed Rivers, Mobile Laser Skirmish is an exciting and fun activity that can be played by young and old, male and female.

Players have the opportunity to engage in competitions that require fitness, teamwork, strategy and skill. Players love the non-stop action and challenge of this high-tech activity.

The portable nature of Mobile Laser Skirmish allows the operator to take the skirmish out into the community and use a variety of locations – halls, large backyards, properties, football ovals, parks, reserves, school grounds, indoor stadiums and bushland.

All players are briefed regarding rules, the correct operation of the XM22 taggers & sensors and O.H & S. issues. Then under the supervision and guidance of the operator, who acts as the referee, the games and fun begin.

There are various competitive scenarios to suit the playing site, playing time and age levels of players.

Large inflatables that are used as obstacles or for concealment can be set up to enhance the playing sites.
